# Entry Into Service

# Entry Into Service

**Entry Into Service** is providing guidance and training to an operator new to the aircraft or aviation in a number of different possible areas. Training in these situations requires a unique set of skills and support.

We have proven experience in providing Entry Into Service training for operations new to a particular aircraft or aviation. Whether your operation is domestic or international – short term or long term – we are here to help.

## EIS SUPPORT SERVICES

### PILOTS, FLIGHT ATTENDANTS & ENGINEERS

- **Pilot IOE** - systems and integration syllabus that will help train crews new to the airplane with on-line experience and issues not learned in school.
- **Cabin IOE** - cabin and customer convenience syllabus that will assist your flight crews and passengers with all aspects of the items not taught in school.
- \*\*All of our Entry Into Service Pilots have a minimum of 1000 hrs in the assigned aircraft and have attended a special training session dealing in training of the familiarization of the aircraft.

### REGULATORY AND OPERATIONS

- Flight Operations Manual
- Standard Operating Procedures
- Certificates of Authority
- Letter of Authorizations

# JGI AVIATION SUPPORT ADVANTAGES

## CUSTOMER SERVICE & CONFIDENTIALITY

Our EIS crews have special training in customer etiquette, overall professionalism and confidentiality procedures. We understand the need for discretion. Our crews will assimilate seamlessly within your organization. We are committed to building long term relationships and providing value added service to our clients. Our success is a direct result of our clients success.

## QUALIFIED & COMPETENT CREW RESOURCES

All potential candidates are registered with JGI. We retain and update their pilot credentials to include training records, medical records and licenses. Our professional pilot pool incorporates thousand's of hours of International and Domestic flying. ***We are pilots and personally know and have flown with all our pilots... we will not just fill a seat to swing gear!***

## TECHNICAL EXPERTISE & ALLIANCES

We partner and maintain relationships with the technical expertise and experience in a wide range of aviation regulations, requirements and audits worldwide. Our key relationships with industry leading companies augment the JGI staff.

# Entry Into Service

*“ We just bought a new Challenger and JGI provide us with a pilot to help our guys get acclimated to the new plane. Their pilot was not only very experienced on the plane and day to day operations but also very organized and had a structured syllabus that rounded out a very comprehensive and thorough training program.”*

# JGI FERRY & DELIVERY SUPPORT ADVANTAGES

## UNMATCHED CREW SUPPORT EXPERIENCE

Since 2002, JGI has been providing crew support services to the largest aircraft manufactures, Fortune 100/500 companies, owners and operators and wealthy individuals. We do not just maintain a database of unknown pilots, we engage our pilots and assess their backgrounds, experience and do reference checks to get to know every pilot we use on assignment. We know the crew we are sending you, not just searching databases.

## UNIQUE RECRUITING PILOT PROCESS

Our process in supplying pilots is much different than most. All our pilots have been referred to us and references checked by other pilots we know and trust. We fly with the majority of our pilots before you do. We assess their skills and personalities to better match a pilot with a client. We are a company founding by principal and we maintain the principal that we only use pilots that we know will compliment your operations.

## SAFETY FIRST

Safety is first and foremost at JGI. All of our crewmembers attend currency and regulatory classes on the airplane but also on aviation safety. Above that all our pilots attend International currency classes to maintain the highest level of proficiency in International Operations and Regulations. We hold our pilots to the highest standards of safety in all aspects of aviation.

# PAYROLL & CONTRACTOR MANAGEMENT

**JGI PROVIDES COMPANIES WITH CURRENT CONTRACTORS AND LABORERS DIRECTLY OUTSOURCED BY THE COMPANY WITH:**

- risk management
- cost control
- potential tax and labor issues

by assuming all payroll and contract management services.

**THE CONTRACTOR WORKS FOR JGI BUT THE CLIENT RETAINS OPERATIONAL CONTROL. AS THE EMPLOYER OF THE CONTRACTOR, JGI ADOPTS ALL THE EMPLOYER RESPONSIBILITIES TO INCLUDE:**

- Taxation and Reporting
- Unemployment Insurance
- Worker's Compensation Insurance
- General Commercial Liability Insurance
- Background & FAA Records Checks
- DOT Drug Testing Program Participation
- Human Resource Functions

This process allows us to integrate payroll functions and data with employee management thus providing better tracking and auditing of clients and employees as well as tracking full-time vs part-time status. This is an integral part of the staffing services functions as some companies require all contractors to be employees of the staffing company while others do not.
